Abstract (en)
[origin: EP0194555A2] A process for producing a laminate comprising a sheet material and a plastic film laminated on at least one side of the sheet material, which comprises vacuum-packaging the sheet material by a vacuum packaging film material, of which at least the portion corresponding to said side of the sheet material is made of a plastic film to be laminated on the sheet material, press-bonding the plastic film to the sheet material, and removing the film material from the sheet material except for the plastic film portion laminated on the sheet material.
