Abstract (en)
[origin: EP0196057A2] 1. A radiator cover made of tile-shaped ceramic material and adapted to be suspended on the radiator, its height and width corresponding substantially to the height and width of the radiator provided with radiator ribs, characterized in that one or more large-format ceramic tiles (4) with low wall thickness and corresponding at least to the height of the radiator (3) to be covered are suspended in the radiator (3) by means of hooks (6, 6', 6"; 10, 11, 12) attached to the back of the tiles and lie directly against the front of the radiator (3) facing the room to be heated, thereby forming chimney-like channels closed off from the room between the tiles and individual radiator ribs.
