Abstract (en)

[origin: US4732692A] This cosmetic composition contains from 0.05 to 3% by weight of at least one amphoteric surface-active agent chosen from the compounds of formulae (I), (IV), (V), (VI) and (VII), from 0.05 to 3% by weight of at least one anionic surface-active agent chosen from the compounds of formula (VIII) to (XI) and from 0.02 to 8% by weight of at least one nonionic polymer (poly- beta -alanine, alkyl and hydroxyalkylcelluloses, starch derivatives) and/or anionic polymers (polyacrylamide, polyacrylamidosulphonic acid and its salts, sodium polymethacrylate), the total concentration of surface-active agent(s) not exceeding 5% by weight. Despite this reduced concentration of surface-active agent(s), which endows it with a satisfactory innocuousness, this composition has an excellent cleansing power. <IMAGE> <IMAGE> <IMAGE> <IMAGE> +TR <IMAGE> R1 to R13, R'1, n, m, and p have specified meanings.
