Abstract (en)
Blind of the type comprising a panel (3) stretched between a top rod (1) and a bottom rod (2), whose folding-up is guided along vertical cables (9) also forming the pulling cord for raising the bottom rod (2) in the direction of the top rod (1). The panel (3) is made from a flexible textile material, the top (1) and bottom (2) rods are rails open at their base and receiving a removable trough (4) and the concordant parts (5a, 5b) of touch-and-close strips are fixed, respectively, on the removable troughs (4) and the lower and upper edges of the panel (3). <IMAGE>

Abstract (fr)
Store du type comportant un panneau (3) tenu entre une tringle haute (1) et une tringle basse (2) dont le repliement est guidé le long de câbles verticaux (9) constituant également le cordon de tirage pour relever la tringle basse (2) en direction de la tringle haute (1). Le panneau (3) est en matière textile souple, les tringles haute (1) et basse (2) sont des rails ouverts à leur base accueillant une baguette amovible (4) et, les parties concordantes (5a, 5b) de bandes auto-agrippantes sont fixées respectivement sur les baguettes amovibles (4) et les bords inférieur et supérieur du panneau (3).
