Abstract (en)

Device for varying the weight, the moment of inertia and/or the centre of gravity of a racket, comprising interchangeable weight elements (8) designed in order to be blocked in the cylindrical bodies (4) passing through the frame (1) of a racket and intended to protect the strings at the point where the latter pass through the frame (1) of the racket. <IMAGE>

Abstract (fr)

Montage destiné à modifier le poids, le moment d'inertie et/ou le centre de gravité d'une raquette comportant des éléments de poids interchangeables (8) conçus pour être bloqués dans les corps cylindriques (4) traversant le cadre (1) d'une raquette et destinés à la protection des cordes à l'endroit où ceux-ci traversent le cadre (1) de la raquette.
