Abstract (en)  
[origin: US4722171A] A bitless bridle has a noseband (2) which on each side ends with a lateral ring (24), and has a flexible and elastic metal strip (28) embedded in the noseband. The bridle also has a left and a right, short guide piece (34) on each side connected to lateral rings (24) from which guide pieces hang downwardly and end with a guide ring (40). A left and a right rein (46, 48) are fastened to the lateral rings (24); and the reins run under the chin of the animal where they cross. The right rein is connected to the left lateral ring and the left rein is connected to the right lateral ring. The reins run through the guide rings (40) on their respective sides (FIG. 1).
