Abstract (en)
[origin: EP0203584A2] The pipeline connection part is used especially for the temporary closure of water connections in buildings. So that a prescribed scavenging of the lines closed by means of the plug becomes possible, the pipeline connection part has a part (1) connectable to a pipeline connection point and possessing a threaded part formed at one end for screwing into the pipeline connection parts, and a water shut-off member at the opposite end in the form of a plug part (5, 20). <IMAGE>
