Abstract (en)

Apparatus for the transportation of a collapsible fork-lift truck (2) on a lorry (1) comprising a ramp (5,5"), which is hingeable under the lorry (1) and which can be moved between a downward loading position (5") and a raised transport position (5). The means for moving the ramp (5,5") between the two positions are either a piston (24) on the fork-lift truck (2) or on the lorry (1). The ramp can be locked in its raised position (5) by a support (15,16).
