Abstract (en)
[origin: EP0210580A2] 1. Pile loop knitted textile consisting of a basic product which is formed by wales of the warp-knit threads being laid in a closed fringe (pillar stitch), which wales are joined between sinker loop and needle loop of the fringe, the rear pile threads being joined in their turn between two neighbouring wales between the sinker loops and needle loops of the fringe, characterized in that the front pile threads (14) are knitted as plating loops of the fringe in two successive rows of loops of two neighbouring wales, and in that one or several weft thread systems (10, 11) are laid in the same or the opposite way of position beneath one or several wales, are joined between the sinker loops and needle loops of the fringe, and run between the sinker loops and needle loops of the plating front pile loops.
