Abstract (en)
[origin: EP0210591A2] 1. Refill package (1), for large format tablets (4), with a substantially about box-shaped or parallelepipedonal tablet supply container open at a narrow side, characterized thereby, that a lid (3), which consists of a rectangular head plate (12) with two webs (13), which are shaped on at somewhat less than 90 degrees at opposite edges, is associated with the opening of the tablet supply container, that a locating dog (15) is shaped on to the free end of each web (13) and that both the side surfaces (8) of the supply container, which are to be turned towards the webs (13) of the lid (3), each possess a respective counterbearing (11) constructed for detenting the locating dogs of the webs (13) of the placed-on lid (3) and a respective recess (9) thereover, which is about the width of a thumb and starts out from the upper edge of the container side surface (8).
