Abstract (en)

[origin: EP0213051A1] 1. Espagnolette or espagnolette-lock fitted with an anti-tampering device (37) connected to at least one operating rod and to one of the elements (26, 27, 28) for controlling the mechanism (9) of the espagnolette or espagnolette-lock, this anti-tampering device (37) being supported, in the active position, against a stop (36) in one piece with the housing (2) of the espagnolette or espagnolette-lock, characterised by the fact that at least one of the connections (38, 39) of the anti-tampering device (37) to the operating rod and to one (28) of the elements (26, 27, 28) for controlling the mechanism (9) has an idle stroke (40) at least equal to the distance between the bolted position and the end of the stroke of the operating rod.
