Abstract (en)

[origin: EP0213310A2] An extruded profile of synthetic material for refrigerators, refrigerating compartments, coolboxes or the like, is characterised in that it has two leg regions arranged at right angles to one another and in that one leg region has a groove which is open to the outside of the leg region. Preferably, the other leg region has at its free end a rearwardly open recess for a wall panel of the refrigerator or the like. <IMAGE>
