Abstract (en)  
[origin: EP0213500A2] A clear or translucent liquid detergent composition that is pourable at room temperature and provides soil anti-redeposition, improved cleaning performance, and viscosity control, comprises I to 60% of at least one surfactant, up to 20% of a water-soluble sequestrant builder, 0.I to 2% of an active agent selected from homopolymers and copolymers of acrylic acid, and enough water and other additives to make 100% of said composition.
