Abstract (en)  
[origin: EP0213616A2] 1. A combined data transmission cable (1) having - a plurality of insulated and individually covered coaxial cables (2 to 2e) - at least one multi-core, insulated, covered and stranded data cable (7) and - at least one multi-core, insulated, covered and stranded sound cable (11), characterised in that, - all the cables (2 to 2e, 7, 11) are arranged next to one another in the form of a flat cable with equal pitch ; - the flat cable so formed comprises an inner casing (17) enclosing all cables (2 to 2e, 7, 11) in the manner of a ridged cable ; - a covering (19) in the form of a metal foil is laid over the inner casing (17), extends in a sealed manner over the whole circumference of the inner casing (17) and makes contact with a longitudinal, bare additional wire (18), and - an outer casing (20) is laid over the covering (19) in the manner of a hose casing.
