Abstract (en)

Tongue-and-groove joint between two wooden facing panels (2). The panel edge projects further forwards behind the groove (4). The groove (4) and/or the tongue (20) are tapered. The width of the groove (4) is greater than the thickness of the tongue (20), so that there is a play there. The front faces (6; 22) of the groove (4) and of the tongue (20) are parallel to the rear face (8) of the panels (2). <IMAGE>

Abstract (de)

Nut-Feder-Verbindung zwischen zwei Verkleidungs-Holzpaneelen (2). Hinter der Nut (4) springt der Paneelrand weiter vor. Die Nut (4) und/oder die Feder (20) verjüngen sich. Die Weite der Nut (4) ist größer als die Dicke der Feder (20), so daß dort ein Spiel besteht. Die Vorderflächen (6; 22) der Nut (4) und der Feder (20) sind parallel zur Rückfläche (8) der Paneele (2).
