Abstract (en)
[origin: EP0219985A2] A concrete slab for false floors has a downwardly extending peripheral reinforcing rib, stiffening ribs extending across the slab in two orthogonal directions, a weight not exceeding 20 kgs for an area of 600 x 600 mm and fulfils the medium-grade requirements of Property Services Agency Specification 08.801. It may have further diagonal reinforcing ribs at the corners or a further reinforcing rib inwardly spaced from the peripheral reinforcing rib.
