Abstract (en)

[origin: EP0220550A1] 1. A sorting table, in particular for grain, having a plurality of tiers (1 - 7) arranged one above the other and each comprising a plurality of compartments (8) which are arranged side by side and which are separated from one another by deflector walls (9) with isolated empty segments (10, 15, 20, 21), and also having means for feeding the material, which comprise downward passages through the empty segments of upper tiers to feed openings of the compartments of lower tiers, characterised in that the feed openings (19) arranged in the walls of the empty segments (15, 20, 21) at a distance above the compartment floor (26) precede deflector surfaces (18) inclined relative to the feed openings (19) in the downward cross-section of the downward passages (16, 17).
