Abstract (en)
[origin: EP0220671A2] The device consists of a screen (1) having targets (3, 4, 5, 6, 7) in different colours placed at different distances and different heights. The screen (1) is intended to be positioned and mounted on the framework of a football goalmouth with the aid of fastening means (2) and over the entire surface of the goalmouth. This screen is provided to permit control of the accuracy of goal shots in training, by displaying impacts of the ball relative to the targets. <IMAGE>
