Abstract (en)
[origin: EP0221469A1] 1. Equipment for the generation of phantom targets and for camouflage, in particular on ships, for the impeding or preventing of the determination of position in the case of external location by means of radar and/or heat measurement, for example infrared measurement, with the use of atomiser nozzles for liquids, characterised thereby, that the atomiser nozzles are distributed at spacings in the region of the outer outline of the craft (1) and are water projectors (2, 9, 17, 18) producing cold and/or warm water mists acting outwardly in all directions.
