Abstract (en)  
[origin: EP0222448A2] A freezing house is provided, comprising a roof and wall construction, which exists of a support construction (1) and an insulating layer (2). The insulating layer (2), that is preferably positioned at the outer side of the support construction (1), exists of a double-walled flexible insulation cover which is filled with an insulating material (3). The support construction (1) can comprise a dismountable steel construction.
