Abstract (en)

[origin: WO8605129A1] The unit comprises a vertical panel (1) separating the workshop into a medium cleanliness area (2) and a maximum cleanliness area (3), an elongated container (4) in the area (2) and a housing (6) inserted in an opening (5) of the panel (1); the tubes are cleaned and pre-rinsed in the container (4), and then rinsed and dried in the housing (6) which is also used as lock-chamber for transferring the tubes between the areas (2) and (3). Application to the making of integrated circuits.
