Abstract (en)

[origin: EP0223896A2] The invention relates to a cutter chain link (1) of a shearing chain for a shearing machine. There is a dovetail guide (6) on the cutter chain link (1) for detachably fastening a tool holder (13) or a deflector (12). A dovetail (14) at the base of the mounted parts can in each case be inserted into the dovetail guide (6). The dovetail guide (6) is of tapered design and thus ensures that all mounted parts are seated free of play on each cutter chain link (1). <IMAGE>
