Abstract (en)

[origin: US4751918A] The bed comprises a plurality of rollers (9, 10) disposed in parallel side by side relation to one another for supporting the person in bed, and a mechanism for imparting to these rollers a relative movement relative to the body of the person in bed whose bearing points on the rollers change constantly.

Abstract (fr)

Le lit comporte une pluralité de rouleaux (9, 10) disposés parallèlement les uns à côté des autres pour supporter la personne alitée, et des moyens pour animer ces rouleaux d'un mouvement relatif par rapport au corps de la personne alitée dont les points d'appuis sur les rouleaux changent constamment.
