Abstract (en)
[origin: EP0226169A2] The working platform is intended for doing work at some heights, such as painting, washing and cleaning structures and windows under the ceilings of rooms, particularly industrial shops. The working platform consists of upper segment 1 and lower segment 2 which are slideably mounted relative each other and a proper number of hangers 15 used for attaching the working platform at a proper height, particularly to the structural components located under the ceilings of industrial shops. The working platform is slid horizontally directly at a height.
