Abstract (en)

[origin: EP0228331A1] 1. Packaging for packing parcels of objects of different sizes, comprising an American case (1) or the like and a film (2) of heat shrinkable plastics material integral with the bottom of the case, said film (2) of plastics material being gripped between the outer flaps (3) which are attached to two parallel walls of the case and which constitute the actual base of the packaging and the inner flaps (5) attached to the other two walls and lining this base internally, said packaging comprising at least one tongue (7) cut out of each of the inner flaps (5) of the base and hinged to the adjoining wall (6) by a pivot line consisting of the connecting edge of this wall and the associated flap, said tongue being applied against the outer face of the film (2) of heat shrinkable plastics material and adhered to the inner face of the outer flaps of the base (3).
