Abstract (en)

A quick release threadless fastener for connecting together two pieces of material (11,13) comprising first and second threadless fastener assemblies (10,20) each of which comprises a base (12,22) and a threadless fastener element (19,30), the fastener elements (19,30) being detachably engageable with each other characterised in that the said base (12,22) and fastener element (19,30) of each said assembly (10,20) are adapted to be disposed on opposite sides of the respective piece of material (11,13), each said assembly (10,20) comprising an intermediate member (14,24) which is fixed to the respective said base (12,22) and whose distal end is connectable to the respective fastener element (19,30) after the intermediate member (14,24) has been passed through the respective piece of material (11,13).
