Abstract (en)
[origin: EP0228767A2] The bag (10) of the combination is adapted to be worn on the back of a wearer and is preferably in the form of a rucksack or haversack. The bag (10) has a front portion (11), a rear portion (12) and a compartment (15) which extends substantially around the bag between and connecting the front and rear portions of the bag and in which the cape (20) of the combination is stored when not required. The cape (20) is joined to the bag and preferably the front portion of the bag forms a part of the cape.
