Abstract (en)

[origin: EP0233298A1] The machine is a coin operated gaming machine wherein at each play random number display means is actuated a plurality of times and a number corresponding to the number displayed by the random display device at each actuation is illuminated in a display matrix of the machine containing all numbers, the objective being at each play to win by illuminating a row of numbers or the four corner numbers in the display matrix. Winnings are in the form of tokens dispensed from the machine and the tokens can be exchanged for gifts contained in a display case forming part of the machine casing.
