Abstract (en)

[origin: EP0235313A1] 1. Lifting or depositing device for big transportable receptacles (10), e. g. cabins, containers or the like, with approximately receptacle-height connection posts (20) vertically attachable at the corner fittings of the big receptacle, for brackets (11) which carry rack hoists (12) or the like, whose rack bars (150) or the like are provided on supports (15) for the big receptacles, and which can be raised and lowered in the longitudinal direction of each support (15), wherein the supports can comprise ground wheels (32), characterised in that the connection posts (20) are each arranged cornerwise opposed to the big receptacle (10) and carry laterally spaced at their lower end regions at least one further, short, vertical connection post (25) for the bracket (11) of a rack hoist (12).
