Abstract (en)

[origin: EP0237491A2] In the microcamera, each of the two reflection systems comprises: a first-mirror (7) transversally located in respect to the advancement direction and which projects in a direction parallel to the subject plane; a second inclined mirror (9) which projects laterally and parallel to the subject plane; and further side mirrors (12, ... 28), the last of which receives the images of the two reflection systems and is combined with the microfilming and projecting system (16).
