Abstract (en)
In a sound-insulating enclosure (10) for printers (12) or the like, having a lower part (14) and an upper part (16) hinge mounted on this, a platform (26) for the printer (12) is mounted on the lower part (14) in an adjustable manner between a first position, in which the printer is within the enclosure (10), and a second position, in which the printer (12) is at least partially outside the enclosure (10), in order to make operation of the printer (12) more easy. <IMAGE>
