Abstract (en)

[origin: EP0239104A2] The invention has a pair of cutting rollers (1, 2) having circular blade discs (3, 4), and stripping elements (7) projecting between the latter. These stripping elements are arranged in rows on mounting rods (5, 6) which extend over the entire width of the cutting rollers (1, 2) between the bearing plates (P) and rest with one of their narrow sides (5a and 6a) in a positively engaging manner on the outer circumference (3a and 4a) of the circular blades (3 and 4). <IMAGE>
