Abstract (en)
[origin: WO8702143A1] Apparatus for testing the ballast (34) of a fluorescent lamp fitting by replacing the lamp or a starter for the lamp with a unit (10, 30) which substitutes a load impedance (15, 38) for the lamp. Indicators (13, 14, 15, 37) respond to current in the load impedance to show satisfactory or defective condition of the ballast.
