Abstract (en)

[origin: EP0244811A2] 1. Installation for the cleaning of pipelines, comprising a connection (2) at the entrance side for the supply of liquid and a connection (3) at the exit side for connecting to the pipe to be rinsed and supply (11) for compressed air joining the supply of liquid upstream of the connection at the exit side and a control (5) for controlling the supply of compressed air, characterized by a water meter (4) located upstream of the supply for compressed air for metering the liquid running through, the output signal thereof being applied to the input of the control.
