Abstract (en)

[origin: US4775386A] A process for the photochemical stabilization of undyed and dyed polyamide fibre material or blends thereof with other fibre materials, which comprises treating the fibre material with a mixture of (A) an organic copper complex, (B) a light stabilizer and, if desired, (C) an antioxidant, an agent for carrying out the process and the fibre material treated with the agent are described.

Abstract (de)

Beschrieben werden ein Verfahren zur fotochemischen Stabilisierung von ungefärbtem und gefärbtem Polyamidfasermaterial oder dessen Mischungen mit anderen Fasermaterialien, das dadurch gekennzeichnet ist, dass man das Fasermaterial mit einer Mischung aus A) einem organischen Kupferkomplex, B) einem Lichtschutzmittel und gewünschtenfalls (C) einem Antioxidant behandelt, ein Mittel zur Ausführung des Verfahrens sowie das damit behandelte Fasermaterial.
