Abstract (en)
[origin: WO8703137A2] The above-described switch comprises a flat electrically-insulated support (1), at least two electrical connection parts (3, 4), of which one is linked with a fixed contact (10) arranged on the support (1) and the other is linked to a contact strip (8), which is fixed to the support (1) by one of its ends and carries at its other end a mobile contact (9) cooperating with the fixed contact (10). The support (1) is a thin plate of aluminium/oxide ceramic.
