Abstract (en)
[origin: EP0249830A1] 1. Shower partition for baths and shower units, with frameless door wings (1, 2) which each comprise a glass pane or the like and which are swivellable about vertical pivots (7) between a closed position and open positions and comprise, at their free ends, impact surfaces which overlap over a large area in the closed position, characterised in that the door wings (1, 2) are provided, at their free ends along the abutment surfaces (6), with angular portions (3) as gripping strips, which are so disposed and formed that they are able to serve as deflectors for sprayed water.
