Abstract (en)

[origin: EP0250356A2] 1. Smoke protection closure for smoke-tight sealing of openings in walls and/or ceilings, especially for areas connected by transport rails, having a sliding panel (6) slidable in guides (5) parallel to the wall or ceiling, in which seals (21) are provided between wall or ceiling and sliding panel (6), which increase in volume when the temperature rises, characterised in that the guides are formed as guide channels (5) which have a metal profile (19) and a sliding strip (21), which are relatively slidable, in which the sliding strip (21) is comprised of a synthetic material which swells up and forms the seal.
