Abstract (en)
[origin: EP0250730A1] In a forming panel (1) having a plate (5) which is supported and/or reinforced by a frame (2) of wood and/or metal and which serves for forming concrete masses, it is proposed, in order to obtain a long service life and insensitivity towards moisture and ease of cleaning, to manufacture the plate (5) from plastic, preferably from PVC, the metal frame (2) preferably being a hollow profile (3) and having a shoulder (4) for the flush mounting on the outer edge (7) of the plate (5). <IMAGE>
