Abstract (en)

[origin: EP0250870A2] Combined machine of the domestic type comprising a tub (5) housing a rotatable drum (8) for containing laundry to be washed and dried. The drying section of the machine comprises a closed circuit including a blower (20) for circulating heated air through the laundry, and a condenser (22) provided with an open water flow circuit (27,28,29) for condensing the moisture extracted from the laundry. The condenser (22) additionally cooperates with an open air-cooling circuit (30,31,32,33) for increasing the efficiency of the drying operation.
