Abstract (en)

1. Support holder for an identification card (1), comprising a bottom wall (4), a transparent cover (5), two lateral side walls (6, 7) connected to the bottom wall and whose inner surface constitutes a lateral guide for the card, at least one rear stop (8) and an inlet (9) opposite to the rear stop for insertion and removal of the card by sliding it into the holder in its own plane, characterized in that the higher end of each of said lateral side walls is provided, above the bottom wall, with a resilient biasing member (13, 13_a) for cooperating with a support rib (16, 16_a) parallel to the adjacent lateral side wall and carried by said bottom wall, and for exerting a slight pressure on the inserted card and for retaining it in a position where it is slightly above said bottom wall and slightly under said cover.

Abstract (fr)

Il s'agit d'un étui de support de carte d'identification (1) comportant un fond (4), un couvercle transparent (5), deux côtés latéraux (6 et 7), au moins une butée arrière (8) permettant l'introduction et l'extraction de la carte, caractérisé en ce que les deux côtés latéraux sont liés au fond, leur face interne servant de guidage latéral à la carte, l'extrémité supérieure des côtés latéraux étant munis chacun en surplomb du fond d'un organe presseur élastique (13, 13a) permettant, en coopération avec une nervure support (16, 16a), parallèle au côté latéral adjacent d'exercer une légère pression sur la carte introduite.
