Abstract (en)
[origin: EP0252013A2] A mounting assembly which can be mounted and dismounted simply for lighting fixtures suspended from horizontal or inclined ceilings or furniture parts permits high mechanical loadability and effective electrical contact. The mounting assembly consists of - a socket-contact insert (20) with holders (24), which is fixed to the ceiling or furniture part and is screened by a cover (26), and - a compactly constructed plug housing (30) having plug pins (34) arranged in accordance with the socketcontacts (22), a manually operable retaining device (40) for form-fitting engagement with the holders (24) of the socket-contact insert (20), and means for suspending the lighting fixture. <IMAGE>
