Abstract (en)
[origin: EP0252748A2] A falsework support system is made from a number of frames (1). Each frame (1) has two vertical legs (2, 3) interconnected by a plurality of horizontal transoms (4, 5). Each transom has, at each end thereof, a vertical connecting element. The vertical connecting element is releasably connected, at two points which are spaced apart in the vertical direction, to a respective leg of the frame.
