Abstract (en)
[origin: EP0255352A2] The joint comprises a joint body (1) including first attachment means (5,20) for attaching the joint body (1) to a hook termination (8) of a windscreen wiper arm (2), second attachment means (14-16) for attaching the joint body (1) with pivotal play to a wiper blade (3), the first attachment means (5,20) comprising a recess (5) into which the hook termination (8) is insertable and holding means (20) engageable behind the curved part of the hook termination (8) when it has been inserted so as to prevent accidental withdrawal of the hook termination (8) and the second attachment means (14-16) being provided with spring engagement means (14) whereby the joint body (1) can be assembled on the windscreen wiper blade (3).
