Abstract (en)

[origin: WO8704708A1] Novel dioxolane compositions which are useful as antitumor, antibacterial and antifungal compositions, a process of producing the compositions and a method for inhibiting tumors, bacteria and fungi utilizing the compositions. More particularly, the novel dioxolane compositions are organic compounds which are derived from marine sponges, of the family Halichondriidae.

Abstract (fr)

Nouvelles compositions à base de dioxolane utiles en tant que compositions antitumorales, antibactériennes et antifongiques, procédé de production de ces compositions et procédé d'inhibition de tumeurs, bactéries et champignons par l'utilisation des ces compositions. Plus particulièrement, les nouvelles compositions à base de dioxolane sont des composés organiques dérivés d'éponges marines, de la famille Halichondriidae.
