Abstract (en)
[origin: WO8705080A1] A centrifugal compressor comprises a casing (1) closed on at least one side with a cover (4) and provided with inletting (8) and outletting (9) chambers, a pack (6) of stator elements mounted inside the casing and containing diaphragms (10, 11, 12, 13), diffusers (14, 15) and reverse guiding apparatuses (16) rigidly interconnected to each other, and a rotor (7) forming, together with the stator elements of the pack (6), compression stages. Each diaphragm (10, 11, 12, 13) of the stator pack (6) is made in one piece.
