Abstract (en)
[origin: EP0260528A2] Device for dispensing and applying nail-polish comprising a tubular body (1) made of elastically deformable material. The body (1) is composed of a tank (2) for the polish and of a top portion (4) provided with a polish dispensing outlet (9). A row of bristles (10) adapted to spread the polish on the nails extends at one side of said dispensing outlet (9)
