Abstract (en)
[origin: US4809916A] In a cutting mechanism for shredders fabricated in compact construction it is provided as far as the arrangement of support rods for the wipers is concerned, that within each of the pair of wipers (3, 4) the base parts (3a,4a) approach each other to such an extent that the second support rod (6) located there serves as a common support rod (6) for the one (3) as well as the other (4) of the respective pair of wipers (3, 4).
