Abstract (en)

An Easy Open End having a removable section (3) defined by principal score (2) and an opening tab (4) secured to the removable section. A non-removable section of the EOE is provided at a position adjacent to the tab securing portion (5) with a machined portion (8) which locally reduces the bending rigidity with respect to the tearing direction. Further, if necessary, the removable section is provided with a plurality of machined portions which reduce the bending rigidity thereof in the tearing direction.
