Abstract (en)
[origin: WO8705060A1] The ironing support comprises two ironing planes (2, 3) parallel to each other and consisting of plates interconnected by means of strut elements (7, 8) of small height. It is characterized in that, on the one hand, one (2) of the ironing planes is embodied by a so-called main plate, whereas the other (3) ironing plane is embodied by two distinct annex plates projecting over the main plates and, on the other hand, instead of being all arranged at the same extremity of the support, the strut elements (7, 8) connecting respectively the annex plates to the main plate are associated to the main plate at opposite ends thereof, the three parts of the annex plates being thus turned towards each other. Application to the industry of household equipment.
